

For Travellers with Diabetes

<http://www.DiabetesTravel.org>

To Whom It May Concern

Name	Date
-------------	-------------

Address

The individual named above has **diabetes** and needs to carry **insulin, blood glucose testing equipment** and **other medicines** on board the flight. This traveller **must** always have access to monitoring equipment (e.g. lancets, test strips, insulin pump, continuous glucose monitoring system, etc.) and be able to take insulin injections and other medications without hindrance.

The traveller must also have access to **fast-acting carbohydrates** (e.g. glucose tablets, sugar-containing drinks, and other sources of carbohydrate such as snack bars). For further information please contact:

Diabetes Team Contact:
